PROJECT SPACES

INTEGRATED WALLBOARD

6

ADVANTAGE

01

CONVENIENT AND QUICK INSTALLATION

The rough room is directly spliced and fixed with buckles, without damaging the wall and leaving no marks. Fast installation, easy to install and use, saving time and effort.

02

WATER AND MOISTURE RESISTANCE

No mold, moisture, or deformation when exposed to water, solving the problem of traditional decoration. Problems such as mold, peeling, cracking, etc.

03

FIRE AND FLAME RETARDANT

After being tested by national authoritative departments, the fire protection level has reached B1 level, Basically meeting the fire protection requirements of the project.

04

SCRATCH-RESISTANT AND EASY CLEAN

The surface of the product is strong and can be directly scrubbed with a cloth, completely dissolving. Solve the problem of difficulty in cleaning decoration products.

05

SOUND INSULATION

The sound insulation effect of integrated wall panels is 2-3 times that of regular wall panels. This can fully ensure the quality of sleep for family members.

06

HEALTH AND ENVIRONMENTAL PROTECTION

Zero formaldehyde, environmentally friendly and odorless. You can check in tomorrow after completing the installation today. This is also the environmental friendliness that everyone is most concerned about.

PRODUCT CHARACTERISTIC

UPGRADED CARBON CRYSTAL FIBER SOLID CORE BOARD

In Addition To Inheriting The Advantages Of Bamboo Wood Fiber Wood Veneer, There Are Also Significant Optimizations In Its Structure. Firstly, There Are Two Layers Of Pp Co Extruded Layer

On The Surface, Commonly Known As Thermoplastic Polypropylene, Which Can Make The Surface Of The Board More Impact Resistant. At The Same Time, It Can Repeatedly Fold Edges

And Corners During Construction, Which Is Not Easy To Damage. In Addition, The Center Is A Porous Honeycomb Structure, Which Is Not Easy To Deform. While Meeting The Lightweight Requirements Of The Board, It Also Increases The Effectiveness Of Sound Insulation And Noise Reduction.

Activated Carbon Powder Formula Decomposition Of Harmful Gases Such As Formaldehyde

Plate Arch Extrusion Process Strengthen The Hardness Again Without Fear Of Collision

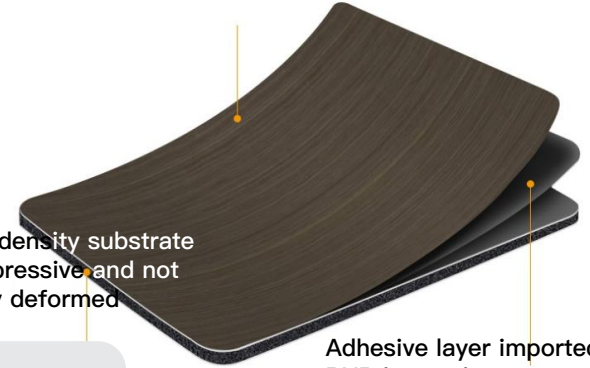

Multiple Splicing Methods Not Just Metal Line Splicing

Fine And Dense Material The Surface Material Is Exquisite And Delicate

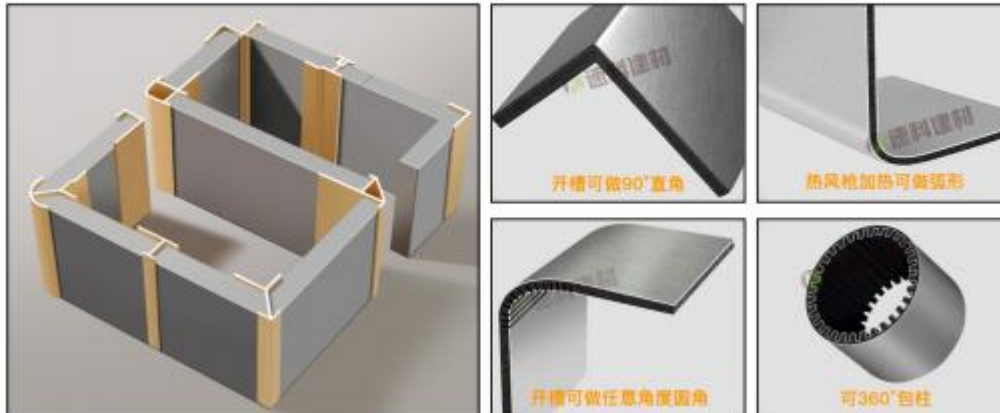

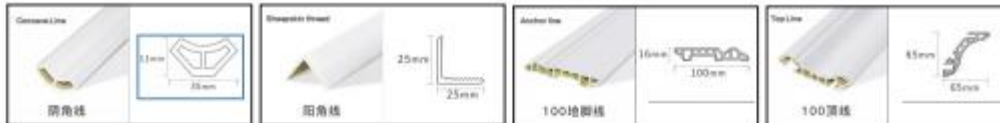

Wear resistant PVC film paper
Clear texture and delicate touch

High density substrate
Compressive and not easily deformed

Adhesive layer imported PUR hot melt adhesive.Green and environmentally friendly, odorless

SUPPORTING LINES

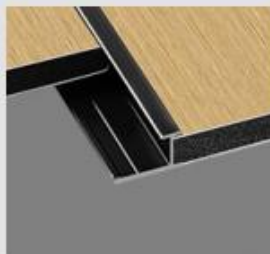

THROUGH SLOTTING OR HEAT TREATMENT, IT IS POSSIBLE TO CREATE FLOATING WALLS AND CREATIVE DIY SHAPES SUCH AS RIGHT ANGLES OR ROUNDED CORNERS.

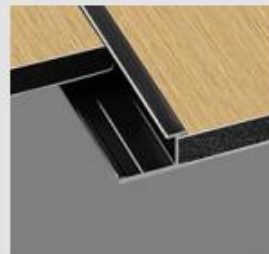

SUPPORTING PRODUCT SERIES

Carbon crystal large plate

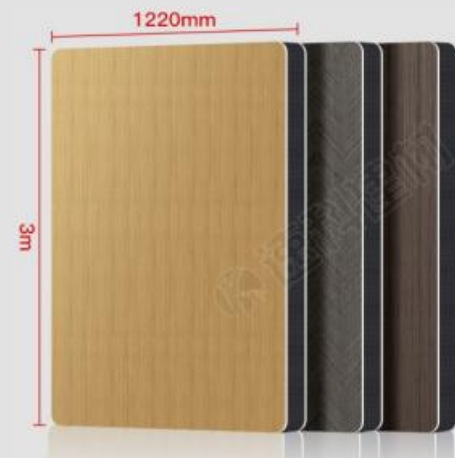

Advantage	Waterproof and fireproof
Material	Bamboo Charcoal
plate thickness	5MM 8MM
Fixed Width	1220MM
Standing size	3M(Support customization)

I-shaped splicing

seamless splicing

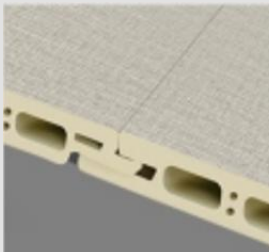

Integrated wall panel

Advantage	Waterproof and fireproof
Material	Bamboo wood fiber
plate thickness	8MM 9MM
Fixed Width	400/600MM
Standing size	3M(Support customization)

V-seam

Flat seam

SUPPORTING PRODUCT SERIES

A-level ice and fire board

Advantage	A-level fire protection
Material	Inorganic cement board
plate thickness	8MM
Fixed Width	1220MM
Standing size	3M(Support customization)

waterproof

A-level fire protection

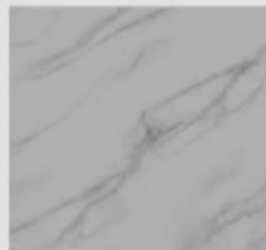

Artistic background

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	9MM
Fixed Width	600MM
Standing size	3M(Support customization)

unexpected misfortune

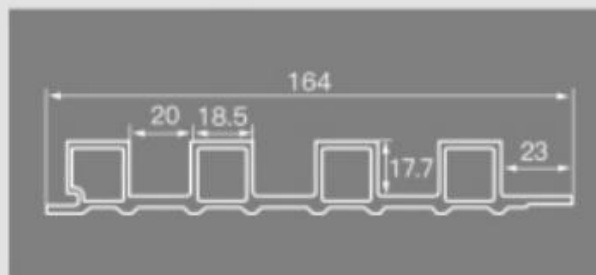

Marbling

SUPPORTING PRODUCT SERIES

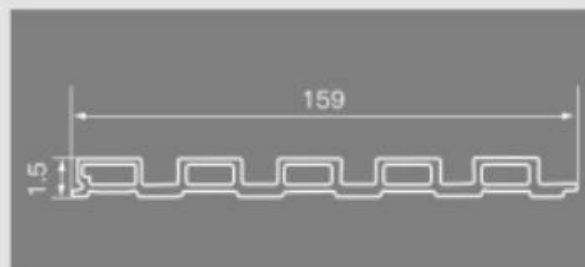

Bamboo and wood grating

Advantage	Available in multiple colors
Material	Bamboo wood fiber
plate thickness	23MM
Fixed Width	164MM
Standing size	3M(Support customization)

The Little Great Wall

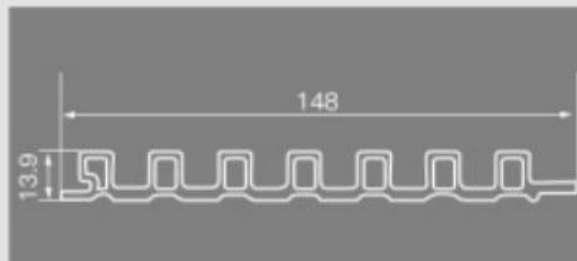

Advantage	Available in multiple colors
Material	Bamboo wood fiber
plate thickness	8MM
Fixed Width	159MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

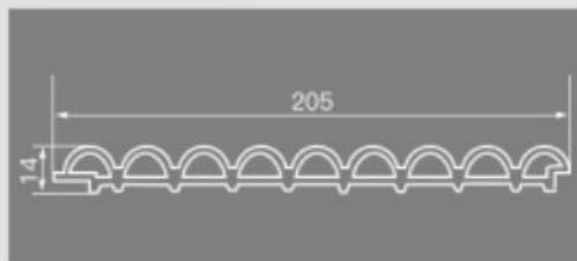

Fine screens

Advantage	Available in multiple colors
Material	Bamboo wood fiber
plate thickness	13MM
Fixed Width	148MM
Standing size	3M(Support customization)

Outer circular plate

Advantage	Diverse styles
Material	Bamboo wood fiber
plate thickness	15MM
Fixed Width	205MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

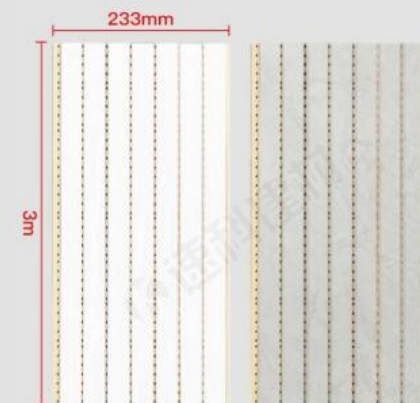

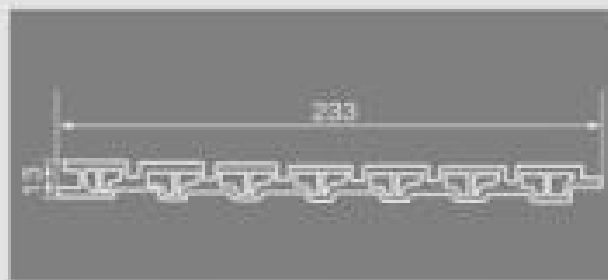

Inner circular plate

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	10MM
Fixed Width	207MM
Standing size	3M(Support customization)

Acoustic panel

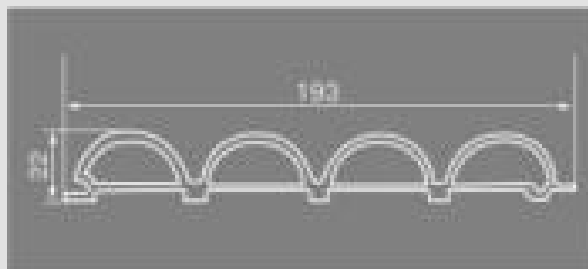

Advantage	Sound absorption design
Material	Bamboo wood fiber
plate thickness	13MM
Fixed Width	223MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

Big Four Circles

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	22MM
Fixed Width	193MM
Standing size	3M(Support customization)

Square combination grille

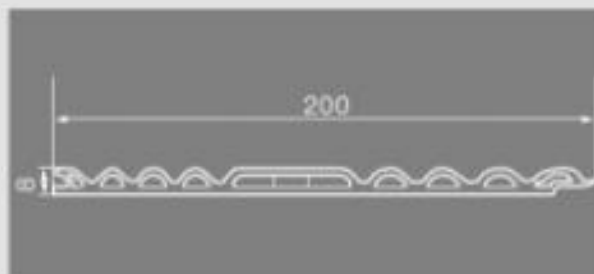

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	10MM
Fixed Width	200MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

Outer circular combination grille

Advantage	Fire and waterproof
Material	Bamboo wood fiber
Plate thickness	8MM
Fixed Width	200MM
Standing size	3M(Support customization)

Molding

Advantage	Fire and waterproof
Material	Bamboo wood fiber
Product Style	Nordic Style

100 anchor wire

25 male line

100 top line

External corner line

SUPPORTING PRODUCT SERIES

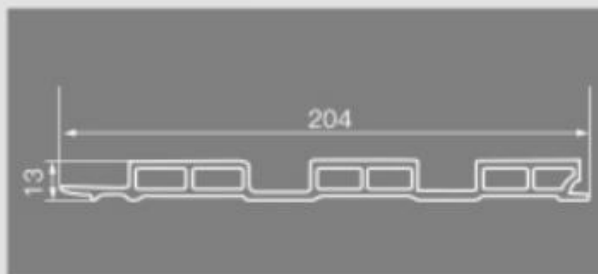

Decorative aluminum strip

Advantage	Wear and corrosion resistance
Material	aluminum alloy
Surface technology	Anodization

The Great Wall

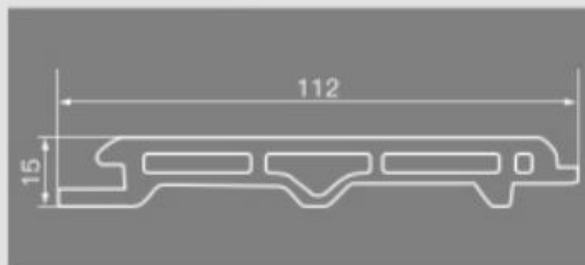

Advantage	Fire and waterproof
Material	Ecological wood
Plate thickness	13MM
Fixed Width	204MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

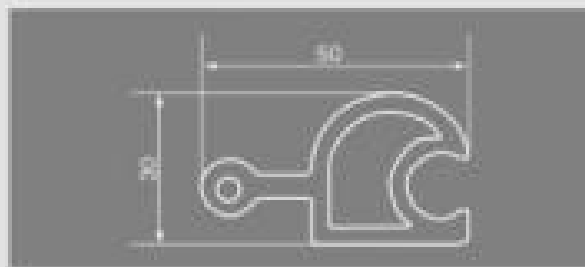

Relief board

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	15MM
Fixed Width	112MM
Standing size	3M(Support customization)

Square combination grille

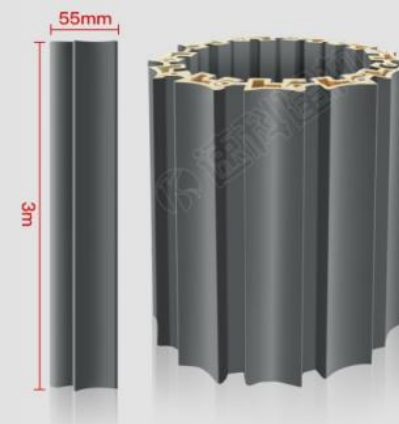

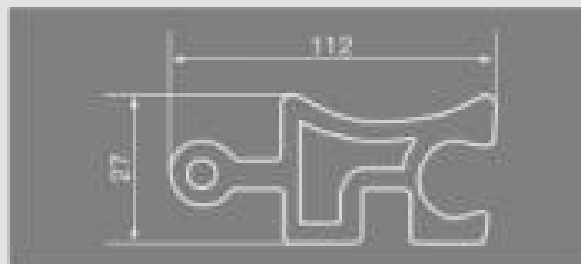

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	30MM
Fixed Width	50MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

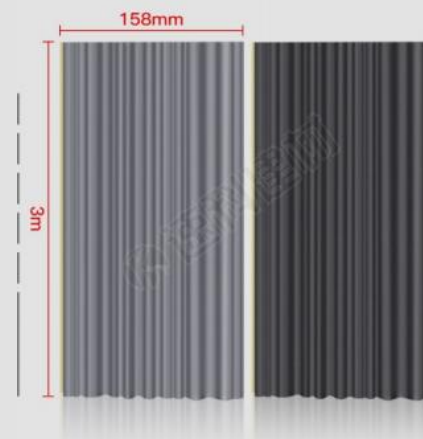

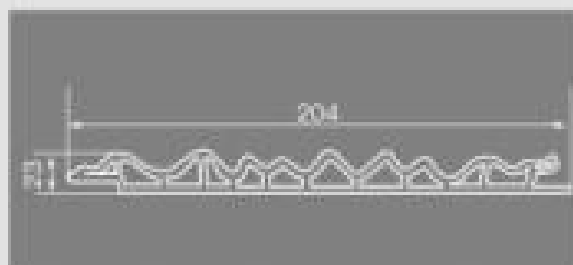

Relief board

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	27MM
Fixed Width	55MM
Standing size	3M(Support customization)

Square combination grille

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	23MM
Fixed Width	158MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

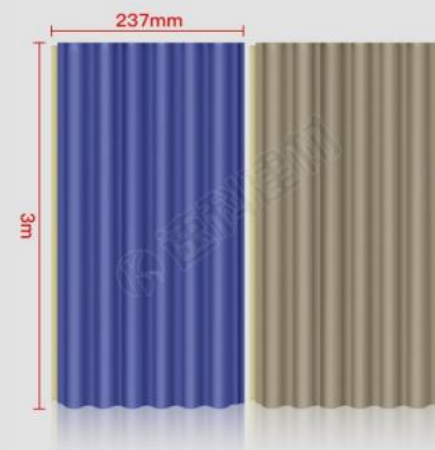

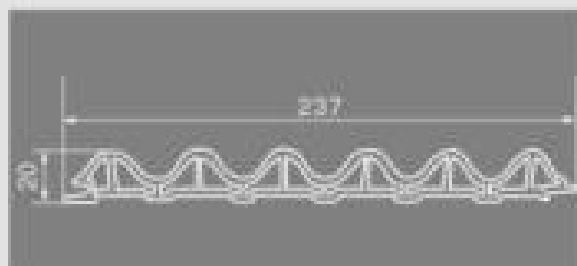

Wall skirt board

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	9MM
Fixed Width	208MM
Standing size	3M(Support customization)

Small Wave Plate

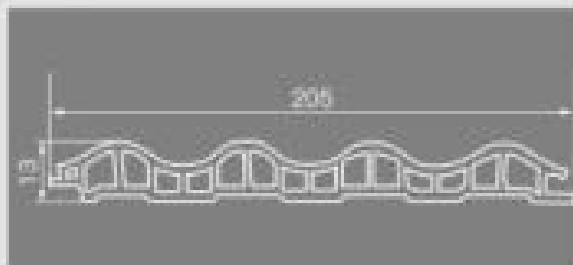

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	20MM
Fixed Width	237MM
Standing size	3M(Support customization)

SUPPORTING PRODUCT SERIES

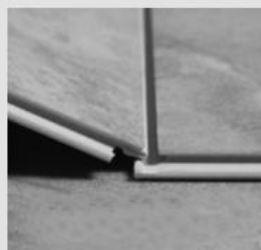

Large Wave Plate

Advantage	Fire and waterproof
Material	Bamboo wood fiber
plate thickness	13MM
Fixed Width	205MM
Standing size	3M(Support customization)

SPC flooring

Advantage	Quick installation process of lock buckle
Material	Stone sculpture
plate thickness	6/8 10MM
Fixed Width	1220MM
Standing size	3M(Support customization)

Lock buckle splicing

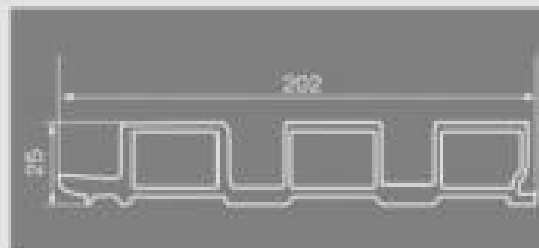

Anti mute layer

SUPPORTING PRODUCT SERIES

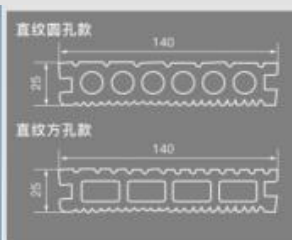

Large Wave Plate

Advantage	Fire and waterproof
Material	Ecological wood
plate thickness	25MM
Fixed Width	202MM
Standing size	3M(Support customization)

SPC flooring

Advantage	Anticorrosive
Material	Plastic wood
Product Color	Available in multiple colors

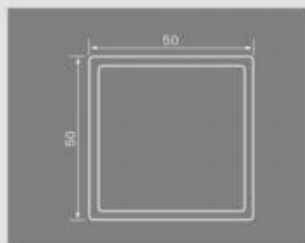

SUPPORTING PRODUCT SERIES

Suspended ceiling square joint

Advantage Waterproof and anti-corrosion

Material Plastic wood

Product specifications 50MM*50MM

Ecological wood ceiling

Advantage Waterproof and anti-corrosion

Material Plastic wood

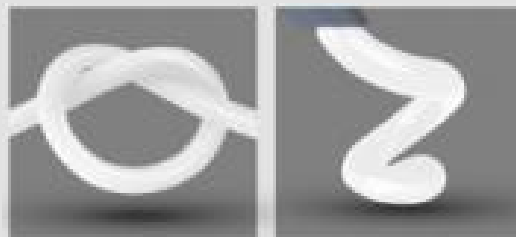

Product Color Available in multiple colors

SUPPORTING PRODUCT SERIES

Special adhesive for wall panels

Product Capacity	500ML
Product Color	white
Fully cured	About 3-5 days
Packaging specifications	20 pieces per box
Storage period	9 months

Snap

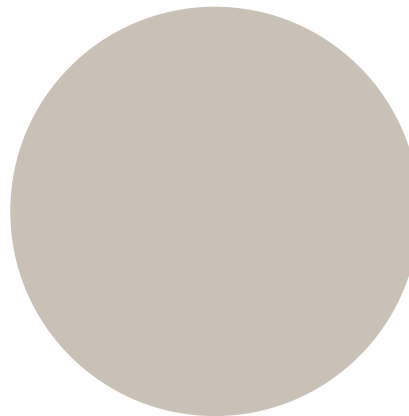

fixed length	50MM
Material	stainless steel
Product thickness	0.45MM
Fixed Width	36MM
Packaging specifications	P25 bags/box
